The author On the surface it all seems too good to be true: a future where human history has come to a standstill and it's as easy as pushing a button to enjoy the finer things in life, including but not limited to: clean water, global peace, the first time a woman tastes a musky male, a first kiss, a first love and more. There is only one problem: only privileged people can push the button. The button is a cosmic interface, a one-way mirror which transmits all desires into reality; the only way to reach it is to work your way into one of the most exclusive clubs in the galaxy. A sci-fi comedy about a world out of our control. Enter Dani!

She's a normal, sometimes slightly neurotic, university student. She lives with her boyfriend, their cat, and her slightly mysterious brother. And she's pushing the button – a life changing step for Dani and her boyfriend, David. They're accepted into a world of limitless possibilities. Dani enters a glamorous world where, from one day to the next, it's as easy as asking: "What shall I do today?" But it isn't all glitter and glamour, and when they discover that the button isn't as easy to access as they thought it was, it's a crash-course in life, love, sex, death and much more as they strive to achieve their impossible dreams. Dani is a fresh, fun, romantic comedy short story that's perfect for the World Book Day 2020 celebrations! This is a World Book Day short story exclusive to Amazon Kindle.
